mass and balance theory •
definition: • mass: the amount of
an item inside a body • center of
gravity (c.g): the point through
which the force of gravity is said
to act on a mass. • balance of
arm (ba): the distance from the
datum to the centre of gravity of
a mass • moment: the product of
the mass and the balance arm =
mass * arm 4

For practical purposes, the maximum lower-deck load on a 777F is around 50 tons. The maximum total payload is around 104 tons. You can load all 104 tons on the main-deck, which obviously would leave the lower-deck holds empty. Conversely, if you load 50 tons downstairs you're limited to around 54 tons upstairs.
