This book is a distillation of Racing Post expert Kevin Pullein's extensive knowledge on how to make money when betting on football. His weekly column in the Post is hugely popular with sports betting fans. In this masterwork Pullein explains how you can work out what is likely to happen during a football match and how you might be able to exploit this knowledge profitably by betting. The theory will always be simply explained and illustrated, and will satisfy both the more-specialist and the less-experienced reader alike, each of whom will be able to get out of it what they want most - as well as a lot of other things beside.
