FINANCIAL ACCOUNTING, 8E, International Edition with decades of academic and real-world accounting experience. This student-friendly text provides the appropriate blend of academic rigor with step-by-step learning models that reach today's students. Instead of an abstract approach to accounting, you will journey with students through focus companies and their specific financial data and business strategies, imparting students with real-life experience and the decisions they may face. This edition includes a Looking Ahead feature that includes discussions of the current environment of financial reporting, specifically the International Financial Reporting Standards.

MANAGERIAL ACCOUNTING, 7E shows readers how managerial accounting plays an essential role in helping today's managers make effective business decisions for their companies. This edition has been revised with an emphasis on showing students "Here's How It's Used." This unique learning approach along with relevant examples encourages and enables students to develop a deeper understanding of managerial accounting and its implications for business. Readers learn why managerial accounting is important, what it is, where managerial information comes from and how it is best

Rev. ed. of: Financial reporting, financial statement analysis, and valuation: a strategic perspective / Clyde P. Stickney, Paul R. Brown, James M. Wahlen. 6th ed.

This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted
