Sport Psychology presents an accessible overview of current research and debate in the psychology of sport and exercise. Combining important theoretical frameworks and current empirical evidence, it uses sporting examples to explain concepts and applications in a clear and engaging way. The history, background and theory of each topic is discussed, before putting theory into practice through the use of case studies and practical examples. Written by internationally renowned authors, this text is essential reading for students of sport psychology at all levels, whether as part of sport studies, sport science or psychology programmes

Continuing the tradition of excellence that has made it the preferred A&P resource for allied health students, the latest edition of Memmler's Structure and Function of the Human Body prepares you for success in your healthcare careers through easy-to-understand, beautifully illustrated coverage of

Updated in content and pedagogy, this 14th Edition of Memmler ' s the Human Body in Health and Disease has helped hundreds of thousands of allied health students, including those with little background in science, to master anatomy and physiology. From its pioneering use of phonetic pronunciations to its pedagogically effective skin-to-bone transparencies of the human body, and increased focus on visualization, the new edition continues to set the standard for the one-semester course.

In this Fifth Edition of her acclaimed text, Elizabeth D. Hutchison uses her multidimensional framework to examine the influences that can impact human behavior across time. Thoroughly updated to reflect the most recent developments in the field, the book weaves its hallmark case studies with the latest innovations in theory and research to provide a comprehensive and global perspective on all the major developmental life stages, from conception through very late adulthood. The companion text, Dimensions of Human Behavior: Person and Environment, Fifth Edition, examines the multiple dimensions of person and environment and their impact on individual and collective behavior. Together, these two texts provide the most comprehensive coverage available for Human Behavior courses. Order the books together with bundle ISBN: 978-1-4833-8097-1. “ Overall, I believe Elizabeth Hutchison has done an outstanding job in addressing the unique biopsychosocial aspects associated with each stage of development along the life course. ” —David Skiba, Niagara University “ The explicit focus on and reiteration of social work competencies throughout is particularly impressive and helps students preparing for licensure to draw concrete connections between the knowledge in the text and what they will be expected to know. ” —Jamie Mitchell, Wayne State University “ The use of cases and

questions offered the connection to context that we were looking for. ” —Gwenelle S. O ’ Neal, West Chester University “ Great introductory textbook covering material related to Human Behavior in the Social Environment at an appropriate depth and breadth. ” —Lisa M. Shannon, Morehead State University

A bibliography comprising annotated citations of 2037 scientific and technical publications from ten series issued by the U.S. Fish and Wildlife Service. Includes a six-page introduction containing a history of the Service and a description of the research and development series.

Corresponding to the chapters in McCuistion ’ s Pharmacology: A Patient-Centered Nursing Process Approach, 10th Edition, this hands-on study guide offers engaging activities to help you review and remember essential nursing pharmacology. Exercises include study questions, case studies, and NCLEX® Examination – style review questions. This new edition also features alternate item format questions including multiple response, fill-in-the-blank calculations, and ordered response questions. It ’ s an essential tool in helping you apply your knowledge of pharmacology to clinical practice, develop pharmacology-related clinical reasoning skills, and master safe drug administration. NCLEX® review questions include an alternate item format NCLEX®-style question in each chapter along with a number of application-level questions throughout the workbook. Drug calculations chapter follows the outline of the main-text chapter to help you test your knowledge and skill in drug dosage calculation. Sample drug labels have been updated to reflect the latest drug labels from the main 10th edition text. Detailed case studies enhance your understanding of nursing responsibilities in therapeutic pharmacology. Answers for all exercises are provided at the back of the book to facilitate self-study. Rationales are also included for all application-level questions and case study questions. Focus on safety includes a special icon that calls attention to questions related to safe patient care. NEW! Updated content incorporates updated drug labels, removal of discontinued drugs, updated case studies, and updated study questions to reflect all the updates that have been made to the 10th edition of the main textbook.

The Teaching Primary English series is a completely new series of titles aimed at PGCE and BEd students, and the practicing primary school teacher. The series fully reflects the requirements of the IIT National Curriculum.

This concise, practical text-workbook provides extensive real-world practice with the universal medical insurance claim form, the HCFA 1500. Includes flow charts, claims processing forms, and medical reports. Coding and billing content is based on industry practice and addresses electronic claims and a variety of compliance issues. The text provides a brief introduction to MediSoft Advanced Patient Billing Software.
