The Healing Codes, are a simple and powerful self-healing system and a form of energy medicine. (Dr.Oz said on the Oprah Show "the next frontier in medicine is energy medicine"). They were discovered in 2001 by Alex Loyd, PhD, ND. Every time you use a Healing Code, it activates a physical function built into the body that consistently and predictably removes the #1 cause of illness and disease from the body . . . stress.

Dr. Horowitz, dentist and potent self-promoter from Sandpoint, Idaho, follows up his (also self-published) *Emerging Viruses* with this theory of everything evil. He proposes that the military-industrial-government complex is unleashing infections and toxins in order to reduce and improve the world's population. Horowitz is largely ignored by the unconverted; but the web is crammed with endorsements at new age, natural food, religious, conspiracy, and alternative health sites (here's more evidence that the web must be used with a critical eye). human communion. These truths are so freeing that some people don't want you to know them. In LOVE The Real Da Vinci CODE, [World Leading Intellectual] doctor Leonard Horowitz makes an unprecedented contribution. He reveals the code of knowledge and practice required for optimal self-development and global peace. The LOVE CODE contains the music of Divine creativity and the mathematics of language empowering the Laws of physics, spirituality, and cosmic unity. Hidden within Da Vinci's famous drawing, [The Vitruvian Man,] is a map and model of your perfect self in universal balance and Divine communion. With four arms and legs, there is obviously a woman standing behind the man. The poor angry fellow is stuck in the box of earthy strife. The more creative sex has stepped [out of the box] and into the blissful cosmic circle composed of nine core creative musical

tones. These include the ancient Solfeggio musical scale priests once used to produce miracles, plus three newly discovered frequencies that complete the magical circle. Da Vinci's philosophical and theological teachers were masters of musical-mathematics. From their research, Leonardo tapped into the core creative sounds of nature, or the "Master Matrix." This is called the "Kingdom of Heaven" in the religious world. This inspired Da Vinci's creative genius, prophetic vision, advanced science, and Vitruvian Man hypothesis that he left behind as a gift for seekers of this awesome know-how. LOVE The Real Da Vinci CODE is a self-help spiritual-development guidebook that contains powerful exercises to inspire the "Renaissance Wo/Man" in you. This knowledge secures a massive awakening of consciousness worldwide with its priceless personally-empowering

Revelations. This book bridges all religious and cultural divides.

Based on the latest science, this book considers both uses and abuses of DNA - "The Sacred Spiral". Evidence proves DNA is nature's bioacoustic and electromagnetic (i.e., "spiritual") energy receiver, signal transformer, and quantum sound and light transmitter. The theory explored here is that the bioenergetics of genetics precipitates life. Revelations herein bring expanded spiritual meaning to life, physical embodiment, and even evolution. This book offers revolutionary new views of emerging genetic research consistent with metaphysics and sacred spiritual knowledge. It makes distinguished contributions to genetic science, healthcare, cancer therapy, human

In recent years, powered by evolving technologies and experimental design, studies have better illuminated the regulating role of proteolytic enzymes across human development and pathologies. *Proteolytic Signaling in Health and Disease* provides an in-depth discussion of fundamental physiological and developmental processes regulated by proteases, from protein turnover and autophagy to antigen processing and presentation and major histocompatibility complex (MHC) molecules. Moving on from basic biology, international chapter authors examine a range of pathological conditions associated with proteolysis, including inflammation, wound healing, and cancer. Later chapters discuss the newly discovered network of connected events among proteases (and their

inhibitors), the so-called "protease web", and how best to study it. This book also empowers new research with up-to-date analytical methods and step-by-step protocols for studying proteolytic signaling events. Examines biological events triggered by proteolytic enzyme activity across human development and pathologies Discusses the role of proteolytic signaling in inflammation, wound healing, and cancer, among other disease types Features methods and protocols supporting further study of proteolytic signaling events Includes chapter contributions from international leaders in the field
