Despite all of the unpragmatic hardships Jews all over Europe faced, many stayed true to their faith and religion. There are numerous stories in which Jewish people tried to ...

As a math and Jewish studies teacher in a Jewish day school, Chernofsky wanted a different and meaningful way for his students to relate to the Holocaust. From there evolved this book that has just one word, six million times JEW. What would a book of six million Jews look like? This is a volume meant for library and institution presentations on the Holocaust, a daring attempt to give some small sense of the overwhelming number - six million.

An in-depth look at how The New York Times failed in its coverage of the fate of European Jews from 1939–45. It examines how the decisions that were made at The Times ultimately resulted in the minimizing and misunderstanding of modern history's worst genocide. Laurel Leff, a veteran journalist and professor of journalism, recounts how personal relationships at the newspaper, the assimilationist tendencies of The Times' Jewish owner, and the ethos of mid-century America, all led The Times to consistently downplay news of the Holocaust. It recalls how news of Hitler's 'final solution' was hidden from readers and - because of the newspaper's influence on other media - from America at large. Buried by The Times is required reading for anyone interested in America's response to the Holocaust and for anyone curious about how journalists determine what is newsworthy.

The author describes how her family escaped the Nazi destruction of the Polish Jewish community by pretending to be Christians and hiding out with Catholic families

Classes and books on the Holocaust often center on the experiences of victims, perpetrators, and bystanders, but rescuers also occupy a prominent space in Holocaust courses and literature even though incidents of rescue were relatively few and rescuers constituted less than 1 percent of the population in Nazi-occupied Europe. As inspiring figures and role models, rescuers challenge us to consider how we would act if we found ourselves in similarly perilous situations of grave moral import. Their stories speak to us and move us. Yet this was not always the case. Seventy years ago these brave men and women, today regarded as the Righteous Among the Nations, went largely unrecognized; indeed, sometimes they were even singled out for abuse from their co-nationals for their selfless actions. Unlikely Heroes traces the evolution of the humanitarian hero, looking at the ways in which historians, politicians, and filmmakers have treated individual rescuers like Raoul Wallenberg and Oskar Schindler, as well as the rescue efforts of humanitarian organizations. Contributors in this edited collection also explore classroom possibilities for dealing with the role of rescuers, at both the university and the secondary level.

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner" is an original, indeed brilliant contribution to the...literature on the Holocaust."—New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."—Philadelphia Inquirer

This title tells the story of Jewish survivors who pioneered Holocaust research in the immediate aftermath of World War II. Just liberated from Nazi terror, amidst political turmoil and privation, physically exhausted and traumatized women and men founded historical commissions and documentation centers throughout Europe to chronicle the Nazi Final Solution.

In March to Freedom: A Memoir of the Holocaust, Edith Singer gives a first-hand account of the Holocaust. When she was 16, the Nazis placed Edith and her family in the Auschwitz death camp. This memoir describes daily life in camp: meals, roll call, sleeping, selections, tattoos, sabotage, miracles, and eventually her march to freedom. Amidst unimaginable loss of human rights, Edith maintains her faith, takes risks, and makes sacrifices for others.

NATIONAL JEWISH BOOK AWARD FINALIST (2012) Part of the Jewish Encounter series The capture of SS Lieutenant Colonel Adolf Eichmann by Israeli agents in Argentina in May of 1960 and his subsequent trial in Jerusalem by an Israeli court electrified the world. The public debate it sparked on where, how, and by whom Nazi war criminals should be brought to justice, and the international media coverage of the trial itself, was a watershed moment in how the civilized world in general and Holocaust survivors in particular found the means to deal with the legacy of genocide on a scale that had never been seen before. Award-winning historian Deborah E. Lipstadt gives us an overview of the trial and analyzes the dramatic effect that the survivors' courtroom testimony—which was itself not without controversy—had on a world that had until then regularly commemorated the Holocaust but never fully understood what the millions who died and the hundreds of thousands who managed to survive had actually experienced. As the world continues to confront the ongoing reality of genocide and ponder the fate of those who survive it, this trial of the century, which has become a touchstone for judicial proceedings throughout the world, offers a legal, moral, and political framework for coming to terms with unfathomable evil. Lipstadt infuses a gripping narrative with historical perspective and contemporary urgency.

Children of the Holocaust contains the papers delivered at a conference to mark Holocaust Remembrance Day 2004, which was held under the auspices of the AHRC Parkes Centre at the University of Southampton. The book addresses questions of representation of the Holocaust by and of children, both in text and image. While the volume opens with a theoretical discussion of how and where to locate the voice of the child in a text, the majority of contributions deal with exemplary texts either by single authors or specific groups of survivors. The testimonies at the heart of these essays were written in different European languages, mainly in German, English and Polish. The authors offer a variety of perspectives, ranging from the literary to the historical and art-critical. With its wide range of examples and approaches to the theme, this volume proposes to be more than a concise introduction to the theme of children of the Holocaust. It documents the breadth of issues of this branch of Holocaust studies, which is still largely waiting to be discovered.

This remarkable chronicle of life and death in the Jewish Ghetto of Kovno, Lithuania, incorporates Avraham Tory 's collections of official documents, Jewish Council reports, and original photographs and drawings. Gilbert 's introduction supplies the backdrop of the war in Europe, considering crucial questions of collaboration and resistance.
