For my manual machine, the user manual states that when you descale the machine you only use the Hot button. Then rinse with both Hot and Cold. Don't we also need to descale the cold water pipe? Ideally both channels (Hot/Cold) could be descaled and this is the procedure applied for automatic machines.

It was the most brutal corporate restructuring in Wall Street history. The 2015 bankruptcy brawl for the storied casino giant, Caesars Entertainment, pitted brilliant and ruthless private equity legends against the world's most relentless hedge fund wizards. In the tradition of Barbarians at the Gate and The Big Short comes the riveting, multi-dimensional poker game between private equity firms and distressed debt hedge funds that played out from the Vegas Strip to Manhattan boardrooms to Chicago courthouses and even, for a moment, the halls of the United States Congress. On one side: Apollo Global Management and TPG Capital. On the other: the likes of Elliott Management, Oaktree Capital, and Appaloosa Management. The Caesars bankruptcy put a twist on the old-fashioned casino heist. Through a \$27 billion leveraged buyout and a dizzying string of financial engineering transactions, Apollo and TPGin the midst of the post-Great Recession slumpihad seemingly snatched every prime asset of the company from creditors, with the notable exception of Caesars Palace. But Caesars! hedge fund lenders and bondholders had scooped up the company!s paper for nickels and dimes. And with their own armies of lawyers and bankers, they were ready to do everything necessary to take back what they believed was theirs!if they could just stop their own infighting. These modern financiers now dominate the scene in Corporate America as their fight-to-the-death mentality continues to shock workers, politicians, and broader society!and even each other. In The Caesars Palace Coup, financial journalists Max Frumes and Sujeet Indap illuminate the brutal tactics of distressed debt mavens!vultures, as they are condemned!in the sale and purchase of even the biggest companies in the world with billions of dollars hanging in the balance.

Leading scholars summarize the current research on risk, protection, and resilience in the context of youth violence and its implications for practice with children and families. It describes an emerging framework for understanding social and health problems and for developing more effective programs for interventions. This book describes resilient children by examining risk factors for violence and explores the factors that lead some children to resist or adapt to risk. The concept of resilience has been applied to family, school, neighborhood, and organizational contexts. Educational, family, and community resilience are used as the framework to describe social systems that possess risk factors. By understanding why some systems with risk factors are adaptable, information for assessment can be applied to service plans, that will be more effective in treating children at risk of antisocial, aggressive behavior.

Discover where the real success in business can be found. What makes some businesses more successful than others? The answer: people. Organizations with motivated, talented employees that offer outstanding customer service are more likely to pull ahead of the competition. Performance Management is the first text to emphasize this key competitive advantage, showing readers that success in today!s globalized business world can be found, not in technology and products, but in an organization!s people. The third edition includes updated and current information, and features over forty new cases.

What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. Rethinking Prestige Branding collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie

& Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.
