The D902 engine delivers the highest output within the Kubota Super Mini Series engines. By expanding the bore and stroke, Kubota increased engine displacement, while maintaining the same footprint as the D722 engine. By adopting an extended shallow oil pan, the engine height is lower than the D722 engine, providing a compact engine package.

One of the most famous of British cars, the diminutive but robust 750cc Austin Seven, introduced in 1922, changed the course of automobile design and proved the viability of the small-capacity four-cylinder car. The salvation of the Austin company, it was aimed at families who might otherwise have travelled by motorcycle and sidecar, and it remained in production until 1939. The Seven performed as well on the race track as it did on the road and inspired a team of magnificent twin overhead camshaft single-seaters. It survives in respectable numbers to provide new generations of enthusiasts with a practical, economical car to run, race and restore.
