When Hope Edelman, author of the New York Times bestseller Motherless Daughters, became a parent, she found herself revisiting the loss of her mother in ways she had never anticipated. Now the mother of two young girls, Edelman set out to learn how the loss of a mother to death or abandonment can affect the ways women raise their own children. In Motherless Mothers, Edelman uses her own story as a prism to reveal the unique anxieties and desires that these women experience as they raise their children without the help of a living maternal guide. In an impeccably researched, luminously written book enriched by the voices of the mothers themselves--and filled with practical insight and advice from experienced professionals--she examines their parenting choices, their triumphs, and their fears, and offers motherless mothers the guidance and support they want and need.

Motherless Daughters examines the profound effects of the loss of a mother on a woman's identity, personality and life choices, both immediately and as her life goes on. Hope Edelman, who lost her mother at seventeen, searched for a book like this, and wh

In her acclaimed New York Times bestseller, Motherless Daughters, Hope Edelman explored the profound and lasting effects of mother loss, as well as her own search for healing. Now, in her compelling new work, Edelman explores another complex, life-changing relationship, the intricate bond between generations. Drawing from her own experience and the recollections of over seventy other granddaughters, Edelman explores the three-generation triangle from which women develop their female identities: the grandmother-mother-daughter relationship. With eloquent personal testimony, she demonstrates the vital roles grandmothers have played in their granddaughters' lives, as a source of unconditional love, family values and traditions, and backup parent, the ultimate safety net. Here are grandmothers in all their glory: The "Benevolent Manipulator", whose love for her family is matched only by her desire for control; The "Gentle Giant", awesome, respected, who possesses a quiet, behind-the-scenes power; The "Autocrat", who rules her extended family like a despot; The "Kinkeeper", the family hub, who offers a sense of cohesion to the extended clan. With insight and compassion, Edelman probes this unique and emotionally-charged relationship in a book that is a true celebration of an extraordinary bond--and a must read for every woman.

A validating new approach to the long-term grieving process that explains why we feel "stuck," why that's normal, and how shifting our perception of grief can help us grow--from the New York Times bestselling author of Motherless Daughters "This is perhaps one of the most important books about grief ever written. It finally dispels the myth that we are all supposed to get over the death of a loved one."--Claire Bidwell Smith, author of Anxiety: The Missing Stage of Grief Aren't you over it yet? Anyone who has experienced a major loss in their past knows this question. We've spent years fielding versions of it, both explicit and implied, from family, colleagues, acquaintances, and friends. We recognize the subtle cues--the slight eyebrow lift, the soft, startled "Oh! That long ago?"--from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate. Because of the common but false assumption that grief should be time-limited, too many of us believe we're grieving "wrong" when sadness suddenly resurges sometimes months or even years after a loss. The AfterGrief explains that the death of a loved one isn't something most of us get over, get past, put down, or move beyond. Grief is not an emotion to pass through on the way to "feeling better." Instead, grief is in constant motion; it is tidal, easily and often reactivated by memories and sensory events, and is re-triggered as we experience life transitions, anniversaries, and other losses. Whether we want it to or not, grief gets folded into our developing identities, where it informs our thoughts, hopes, expectations, behaviors, and fears, and we inevitably carry it forward into everything that follows. Drawing on her own encounters with the ripple effects of early loss, as well as on interviews with dozens of researchers, therapists, and regular people who've been bereaved, New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities. With guidance for reframing a story of loss, finding equilibrium within it, and even experiencing renewed growth and purpose in its wake, she demonstrates that though grief is a lifelong process, it doesn't have to be a lifelong struggle.

From the bestselling author of "Motherless Daughters" comes the real-life story of one woman's search for a cure to her family's escalating troubles, and the leap of faith that took her on a journey to an exotic place and a new state of mind.

Kate Spencer lost her mom to cancer when she was 27. In The Dead Moms Club, she walks readers through her experience of stumbling through grief and loss, and helps them to get through it, too. This isn't a weepy, sentimental story, but rather a frank, up-front look at what it means to go through gruesome grief and come out on the other side. An empathetic read, The Dead Moms Club covers how losing her mother changed nearly everything in her life: both men and women readers who have lost parents or experienced grief of this magnitude will be comforted and consoled. Spencer even concludes each chapter with a cheeky but useful tip for readers (like the "It's None of Your Business Card" to copy and hand out to nosy strangers asking about your passed loved one).

What do you do when you lose someone you love? What do you do when that someone is your mother? There is no correct answer to that question and somehow our natural instincts kick in and we find a way to go on. The thing about grieving is that nobody can tell you how to grieve. There is no right or wrong way and words, although they sometimes help, may never be enough. After losing my 48 year old mother when I was just 24 years old, I have found a way to live creatively with a bruised and broken heart and I hope my story will inspire you to do the same. In this book I will share my journey through life, love, loss, hope, and a reason to believe that even after losing someone we love tremendously, Life Still Goes On.
