Fieldbook For Educators
Parents And Everyone Who
Cares About Education

What's missing in education reform in the
United States? The answer is leadership;
specifically, the ability of school and
district leaders to construct and
continually nurture a culture of sustained

Get Free Schools That Learn Updated And

high performance. A true leader needs to have not only a vision of the desired culture, but the skills and information necessary to make that vision a reality.

Providing a combined 70 years of classroom and administrative experience, renowned authors James Guthrie and Patrick Schuermann offer a practice-based

Get Free Schools That Learn Updated And

approach, grounded in research and theory, to achieving and maintaining an atmosphere of success in schools through effective leadership.

Cares About Education

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the

Get Free Schools That Learn Updated And

original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting

Get Free Schools That Learn Updated And

new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do--with curricula, classroom settings, and teaching methods--to help children learn most

Get Free Schools That
Learn Updated And
effectively? New evidence from many
branches of science has significantly
added to our understanding of what it
means to know, from the neural processes
that occur during learning to the influence
of culture on what people see and absorb.
How People Learn examines these
findings and their implications for what

Get Free Schools That Learn Updated And

we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include:

Get Free Schools That Learn Updated And

How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings

Get Free Schools That Learn Updated And of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education. Cares About Education

Prospective college students and their

"In Education Nation author Milton Chen draws from extensive experience in media--from his work on Sesame Street in its nascent years to his current role as executive director of the George Lucas Educational Foundation--to support his vision for a new world of learning.

Get Free Schools That Learn Updated And

Presented in five parts and divided into "module" chapters, this book examines the ways in which K-12 learning can be revolutionized through innovative reform and the use of technology. Due in large part to new technologies, over the last few decades we've witnessed a huge shift in how we imagine teaching and learning. A

Get Free Schools That Learn Updated And

good example is the educational revolution sparked by Sesame Street--which in its first season had a goal of teaching preschool-age children the numbers 1 to 10. At the time, experts dismissed it as an unrealistic goal since many kindergarten students were having trouble mastering this simple counting.

Get Free Schools That Learn Updated And

Yet the research proved that preschool-age children learned those skills and many others directly from the TV screen.

Now Sesame Street's curriculum teaches the numbers from 1 to 40. In today's digital age the number of new ways to teach and learn is ever-expanding and includes: television, Google, YouTube,

Get Free Schools That Learn Updated And

TeacherTube, Facebook, iPhones, video games, GPS devices, open source textbooks, interactive whiteboards; and there are countless examples of ways technology positively impacts student learning--from voice-recognition software that helps children learn to read to translation tools that help teachers

Get Free Schools That Learn Updated And

communicate with non-English speaking parents. As a result of constant innovation, learning is no longer limited by traditional confines and we're quickly moving beyond students tied to their chairs, desks, and textbooks--and teachers locked away in classrooms."--
