The creator of Jimmy Corrigan presents a collection of both new and previously published material featuring such colorful characters as Jimmy Corrigan, Rocket Sam, Quimby the mouse, the Super-man, Sparky the cat, Big Tex, and Rusty Brown, a young suburban Chicago outcast and toy collector. Teen.

A latest chapter from "Rusty Brown" evaluates the achievements of real-world protagonist W. K. Brown, in a volume that draws on new discoveries to offer insight into his cultural influence and reclusive nature.

Acclaimed cartoonist Chris Ware reveals the outtakes of his genius in these intimate, imaginative, and whimsical sketches collected from the years during which he completed his award-winning graphic novel Jimmy Corrigan: The Smartest Kid on Earth (Pantheon). His novel not only won the Manchester Guardian First Novel prize in 2001 but it has sold over 100,000 copies. This book is as much a companion volume to Jimmy Corrigan --one of the great crossover success stories-- as a tremendous art collection from of one of America's most interesting and popular graphic artist. Chris Ware has a passion for drawing that is surprisingly wide-ranging in style and subject. This book surprises the reader on every page with its sense of spontaneous vision. Architectural drawings from Chicago and interplanetary robot comics collide with cruelly doodled human figures and quietly troubling studies of the still life. A must for people with a passion for modern design and old-fashioned style.

A graphic novel chronicles four generations of the Corrigan men, from 1893 to 1983.

Straggling behind the mild 2003 success of cartoonist Chris Ware's first facsimile collection of his miscellaneous sketches, notes, and adolescent fantasies arrives this second volume, updating weary readers with Ware's clichéd and outmoded insights from the late twentieth century. Working directly in pen and ink, watercolor, and white-out whenever he makes a mistake, Ware has cannily edited out all legally sensitive and personally incriminating material from his private journals, carefully recomposing each page to simulate the appearance of an ordered mind and established aesthetic directive. All phone numbers, references to ex-girlfriends, "false starts," and embarrassing experiments with unfamiliar drawing media have been generously excised to present the reader with the most pleasant and colorful sketchbook reading experience available. Included are Ware's frustrated doodles for his book covers, angry personal assaults on friends, half-finished comic strips, and lengthy and tiresome fulminations of personal disappointments both social and sexual, as well as his now-beloved drawings of the generally miserable inhabitants of the city of Chicago. All in all, a necessary volume for fans of fine art, water-based media, and personal diatribe. This hardcover is attractively designed and easy to resell.

Collects comic strips from the early 1990s organized around Quimby the mouse.

A new installment of the "Rusty Brown" cartoon series, originally published in the cartoonist's "Jimmy Corrigan" periodical, features seven individuals whose lives revolve around a universally despised child at a Nebraska private school. Teen.

The Comics of Chris Ware: Drawing Is a Way of Thinking brings together contributions from established and emerging scholars about the comics of Chicago-based cartoonist Chris Ware (b. 1967). Both inside and outside academic circles, Ware's work is rapidly being distinguished as essential to the developing canon of the graphic novel. Winner of the 2001 Guardian First Book Prize for the genre-defining Jimmy Corrigan: The Smartest Kid on Earth, Ware has received numerous accolades from both the literary and comics establishment. This collection addresses the range of Ware's work from his earliest drawings in the 1990s in The Acme Novelty Library and his acclaimed Jimmy Corrigan, to his most recent works-in-progress, "Building Stories" and "Rusty Brown."

In Chris Ware's own words, 'Building Stories follows the inhabitants of a three-flat Chicago apartment house: a thirty-year-old woman who has yet to find someone with whom to spend the rest of her life; a couple who wonder if they can bear each other's company for another minute; and finally an elderly woman who never married and is the building's landlady...' The scope, the ambition, the artistry and emotional heft of this project are beyond anything even Chris Ware has achieved before.
